Phone: 601-359-3569

Grant Performance Period-Cycle I: August 9, 2010 to October 31, 2011

Health Insurance Rate Review Grant Program

Mississippi Cycle I Quarterly Report IV

PART I: NARRATIVE REPORT FORMAT

Introduction:

The Mississippi Insurance Department (“MID”) continued to work on its plan to enhance MID’s rate review process during the fourth quarter. Two significant accomplishments include:

- MID completed the development of a rate review transparency website.
- MID participated in Health Insurance Oversight System (“HIOS”) training and began reviewing rates submitted by health insurance issuers pursuant to Section 2794 of the Public Health Service Act (“PHS”).

Program Implementation Status:

I. *Accomplishments to Date*

A. Rate Review Staff

MID hired a grant project officer in August 2011, and existing staff continued to allocate time for rate review grant activities. An additional staff member was hired in late September 2011, to coordinate the rate review process education and outreach efforts. Financial audits are ongoing with reconciliation of the grant’s expenditures performed quarterly by the Grants Manager. The required quarterly Federal and Financial Report (FFR-SF425) for this grant was submitted by the Accounting and Finance Director on October 30, 2011.

B. Consultant Activities

MID continued collaborating with consultants in information technology (“IT”), legal, and actuarial fields in order to enhance its health insurance rate review process.

1. Information Technology Services

The development of the new premium rate information web portal was completed and user training for MID staff was conducted in September 2011. MID requested a no cost extension until October 31, 2011, to accommodate data entry by MID staff and testing by the vendor for the new website.

Health Insurance Rate Review Grant Program

Mississippi Cycle I Quarterly Report IV

2. Legal Services

Legal consultants continue to provide assistance to MID with regard to PPACA, the United States Department of Health and Human Services (“HHS”) premium rate review regulations and how both apply to Mississippi’s rate review process. The consultants have committed over thirty-one (31) hours to review HHS regulations and continue to conduct a detailed analysis of Mississippi’s rate review process.

3. Actuarial Services

MID continues to work with an actuarial firm to review rate filings and determine whether they are in compliance with State and Federal law. Weekly conference calls are coordinated between said actuarial firm, MID’s rate review grant staff and MID’s life and health actuarial staff to discuss PPACA progress and activities related to rate review. The actuaries worked one hundred thirteen (113) hours on rate review grant activities during the fourth quarter.

II. *Challenges and Responses*

Time constraints associated with State procurement and IT processes continued to present the largest challenge for MID in moving forward with rate review grant activities. The selected vendor moved quickly to mitigate the delay.

III. *Required variations from the original timeline*

With the approved no cost grant extension, MID will be able to complete the proposed activities.

Significant Activities: Undertaken and Planned

- I. Mississippi currently has the tools necessary to prevent unreasonable rate increases from taking effect. On July 1, 2011, the Centers for Medicare and Medicaid Services (“CMS”) issued a report identifying states that currently have sufficient authority to

Health Insurance Rate Review Grant Program Mississippi Cycle I Quarterly Report IV

review health insurance rate increases as required under the Patient Protection and Affordable Care Act (“PPACA”). Mississippi was one of forty (40) states, the District of Columbia and the U.S. Virgin Islands, determined to have an effective rate review process for all insurance markets and issuers. The Mississippi Commissioner of Insurance received a letter from the United States Department of Health and Human Services (“HHS”) stating that Mississippi has an “Effective Rate Review Program in all markets”. A copy of the letter from HHS is attached hereto as Attachment “B”.

- II. MID’s vendor for the development of the rate review web portal worked diligently toward completion during this grant period. The consumer-oriented website will provide the public with easier access to Mississippi’s health insurance rate and form filing information. The website’s user interface is modeled after the current MID website, www.mid.state.ms.us. MID will host the website on its servers and manage the website alongside the main agency site. Weekly conference calls continued between MID grant staff, rate review staff, IT staff and the vendor. Test sites were accessed and reviewed by staff to provide input and request changes as needed. The vendor provided required user training to MID staff and in September 2011, the rate review staff began inputting rate data for past rate filings. Copies of the training manuals and examples of the data screens are attached hereto as attachment “C.”

- III. In the fourth quarter of the grant period, Mississippi began planning in order to comply with the Rate Increase Disclosure and Review Regulation, established pursuant to Section 2794 of the Public Health Service Act. Although Mississippi was determined to have an effective rate review process, MID is committed to fully cooperating with HHS and their federal rate review program that went into effect on September 1, 2011.

In order to prepare for access to rate review data submitted by issuers in the Health Information Oversight System (“HIOS”), eight life and health actuarial staff participated in the CMS State Rate Review Webinar Training in August 2011. This

Health Insurance Rate Review Grant Program

Mississippi Cycle I Quarterly Report IV

training included procedures and requirements for issuers and state users. CMS provided a set of guidelines for preparing the rate review data for consumers.

MID will use HIOS as its reporting tool to HHS for rate increases at or above the “Subject to Review” threshold of ten percent (10%). MID staff will access HIOS when notified of a preliminary justification submission for a rate increase and will verify that the filing has been reported in the System for Electronic Rate and Form Filing (“SERFF”). MID uses the SERFF system to review rate and form filings. MID actuaries will review the filings in order to determine whether each requested rate change is reasonable and justified. Within five (5) days of completion of the review, MID staff will report its determination and a brief explanation of the review findings in HIOS.

MID currently provides a method for consumers to submit comments on rate increases via its agency website. Once the aforementioned rate review website is operational, MID will post information on each requested rate change and will post a link to each product-specific consumer disclosure available on Healthcare.gov.

- IV. Nearly ninety-eight percent (98%) of all filings received by MID are filed and reviewed via the SERFF system. MID continued to use SERFF to report rate filing and rate increase activity to HHS for the Cycle I grant’s quarterly reports. The following data for this quarter indicates that there were thirty-five (35) rate filings with thirteen (13) of those requesting an increase:

HIPR Table A - Summary

Rate Filings For This Period (A1)	35
Rate Increases For This Period (A2)	13
Reviewed (A3)	30
Approved (A4)	30
Denied (A5)	0
Deferred (A6)	0

Health Insurance Rate Review Grant Program

Mississippi Cycle I Quarterly Report IV

Operational/Policy Developments/Issues

MID received a letter in July 2011, from the Center for Consumer Information and Insurance Oversight (“CCIIO”) regarding Mississippi’s rate review capabilities. CCIIO reviewed Mississippi’s laws, regulations, and bulletins and determined that Mississippi has an effective rate review program according to criteria set forth in Federal regulation.

Public Access Activities

These activities are currently being planned in conjunction with plans for the development and release of the aforementioned rate review web portal.

Collaborative Efforts

Collaborative efforts are on-going as MID moves forward with the development of a website that will increase overall health insurance rate transparency. Stakeholder involvement will be utilized for user assessment and feedback as MID continues website testing in the last month of the grant period.

Expenditures for Fourth Quarter

The following is a detailed account of expenditures for the fourth quarter, with the allocation of funds following the revised budget approved by HHS on June 9, 2011:

Expenditures	Salaries	Supplies and Equipment	Travel	Other	Contractual
Actuarial Services					\$ 25,256.25
IT Services					\$ 103,600.00
Grants Management and Reporting					\$ 8,799.50
Legal Consulting					\$ 9,366.00
Supplies and Equipment		\$ 26,757.29			\$ 26,757.29
TOTAL FOR QUARTER IV		\$ 26,757.29			\$ 173,779.04

Updated Work Plan and Timeline

An updated objective work plan and timeline is attached to reflect the activities for this quarter.

**MISSISSIPPI'S RATE REVIEW PROGRAM
DETERMINATION LETTER**

July 1, 2011

Honorable Mike Chaney
Commissioner
Mississippi Insurance Department
Post Office Box 79
Jackson, MS 39205-0079

Re: Effective Rate Review Program Determination

Dear Commissioner Chaney:

Section 2794 of the Public Health Service Act, as added by the Affordable Care Act requires the Secretary of Health and Human Services, in conjunction with the States, to establish a process for review of "unreasonable increases in premiums for health insurance coverage." The final rule implementing section 2794, at 45 C.F.R. 154.210(b), provides that the Center for Medicare & Medicaid Services (CMS) will adopt a State's determination regarding the reasonableness of a proposed rate increase if the State meets the criteria for an effective rate review program listed in 45 C.F.R. 154.301. These include:

1. Has the authority to collect the information and perform the analysis described in 154.301(a),
2. Provides access from its Web site to Parts I and II of the Preliminary Justifications for the proposed rate increases it reviews;
3. Provides a means for public input on proposed rate increases; and
4. Provides to CMS its final determination as to whether a rate increase is unreasonable within five days of the determination.

The Center for Consumer Information and Insurance Oversight (CCIIO) reviewed Mississippi's laws, regulations, and bulletins, and confirmed with your agency that it will conduct reviews in accordance with the criteria set forth in the regulation. Based on this information, we have determined that Mississippi has an Effective Rate Review Program in all markets.

As a next step, we ask that you send an email to ratereview@hhs.gov stating the name and contact information of the person who will serve as the liaison between our office and yours for rate review program matters. During the month of July, CCIIO will notify your contact person of procedures to follow for scheduling training sessions and securing access to the CMS web-based rate review system for your staff.

We applaud your efforts to provide an effective rate review program for your State's insurance consumers that meet the criteria outlined in the Affordable Care Act. Many States' laws and programs exceed the standards set forth in the ACA and our regulations, and we encourage all States to continue their efforts to ensure that rates charged to health insurance consumers in their State are reasonable.

Sincerely,

Steve Larsen, Director

Center for Consumer Information and Insurance Oversight

I. END USER VIEW (MS RESIDENTS)

Located online at <http://www.MIDplaceholder.gov>, the End User view enables Mississippi residents to review and compare statistics regarding the premium rate increases, loss ratios and enrollment numbers of all major health insurance plans for sale in Mississippi. The statistics date back five years and also list the date and percentage of a health plan's most current premium rate increase. To learn more about each module in the End User view, the orange letters in the following graphic correspond with the heading titles of this section.

MLR MS Ins.

A. Four Data Categories

The blue arrow button allows MS residents to scroll among four data categories.

Mississippi Insurance Department: Rate Review Interface Training Manual

1. *Date of Last (5) Year Increases:* This category enables Mississippians to view the exact date (mm/dd/yyyy) of any premium increases that occurred during the past five years of a featured plan.
2. *Percentage of Last (5) Yrs Increases:* Additionally, users can view the percentage that the premiums of a featured plan increased during each of the past five years.
3. *Last (5) Years Loss Ratio:* The loss ratio is the percentage of a given plan's premiums that the carrier allocates toward providing and improving health care. For example, if a plan receives \$100 in premiums and \$70 is towards health care, then that plan's loss ratio is 70 percent. Mississippi's Loss Ratio module enables users to view and compare each plan's reported loss ratio in each of the past five years.
4. *No. of MS Insureds:* This category enables users to view the number of current and past Mississippi enrollees in a given health plan—dating back five years.

B. Quick View Function

The Quick View tool is helpful when MS residents want to take a deeper dive into the details and history of a single plan. By clicking the Quick View icon, the End User view aggregates all information of a selected plan into a more user friendly side-by-side view.

Humana

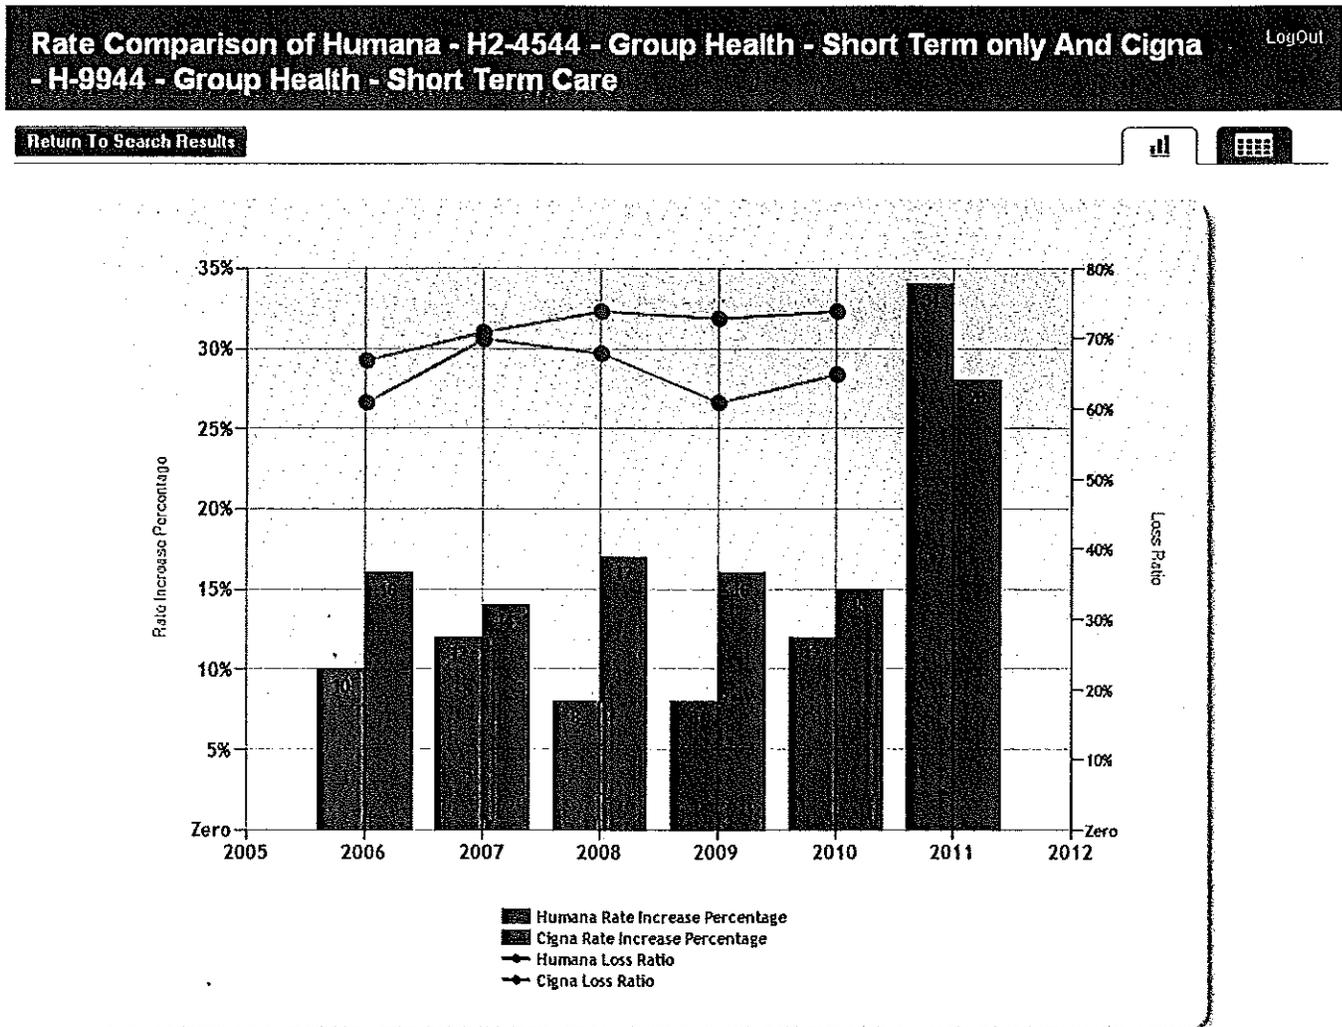

Policy Form #: H2-4545
 Type of Insurance: Group Health - Short Term only
 Policy Approval: 02/16/2011

Current Rate Increased: 08/29/2011
 Current Rate Increase: 34%

	2010	2009	2008	2007	2006
Date of Last (5) Year Increases	01/05/2010	02/10/2009	02/10/2008	02/10/2007	02/10/2006
Percentage of Last (5) Yrs Increases	12	8	8	12	10
Last (5) Years Loss Ratio	74	73	74	71	67
No. of MS Insureds	27111	27035	26808	26501	26023

C. Compare Option

MS residents have the option to visually compare plan data by selecting up to two plans and clicking the Compare button. With the Graph option, the interface aggregates the 5-year loss ratios and rate increases of both selected plans into a single color-coded graph. The line data represents the year-to-year loss ratios of a selected plan and the bar data represents the year-to-year rate increases of a selected plan. Residents can also select the Table option, which compares the two selected plans side-by-side in a default table format.

D. Filtering Option

The End User interface includes various drop-down menus to better assist users in comparing plans. MS residents can filter plan data by company name (e.g., only Cigna plans), type of insurance (e.g., only group health plans) or by the date of the plan’s most current rate increase.

E. Export Option (PDF, Excel, XML, CSV)

The Export Option enables MS residents to transfer their rate review results for various types of external uses. Mississippians can export plan data into a PDF for a cleaner printout or into an Excel spreadsheet for customized graphing and Visual Basic programming (VBA) tools. Alternatively, the rate review information can be exported into an XML or CSV document, which is helpful in feeding the data into other systems more efficiently.

F. Links

The End User interface also provides links to various help aids for MS residents. The Resources link connects to useful consumer information and insurance terminology guides. Consumers can access the Frequently Asked Questions (FAQ) page for immediate guidance regarding rate review information. If an issue is not addressed in these Internet resources, residents also have access to the Feedback link, which connects to email support.

II. RATE REVIEW ADMINISTRATOR VIEW (MID STAFF)

The Rate Review Administrator view enables qualified MID staff to input and edit the rate review data that MS residents see from the End User interface. It also provides monitoring and troubleshooting tools to keep the system secure, efficient and running properly. All Rate Review administrators login through the Mississippi Insurance Commissioner's blog at <http://www.MIDplaceholder.gov>. To learn more about each module in the Rate Review Administrator view, the orange letters in the following graphic correspond with the heading titles of this section.

After submitting any new edits, the administrator can click the back button and the interface will highlight the most recently modified plan in light blue.

B. Delete Option

MS administrators can delete a plan's data from being featured to residents by clicking the Delete icon. The interface will then ask the administrator to confirm the delete. It is a soft delete, so administrators who accidentally delete a plan's data can recover it from the Rate Review database if necessary.

In addition to tools for editing and deleting plans from the End User interface, the Administrator interface also provides [Add New](#), [View Audit Trail](#) and [View Error Log](#) features.

C. Add New Option

By clicking the Add New button, Rate Review administrators can create a new plan with data for MS residents to view. The first six inputs (Company, Policy Form Number, Type of Insurance, Secondary Type Description, Date of Current Rate Increase and Percentage of Current Rate Increase) are mandatory, whereas all other fields are optional. The interfaces of the Add New feature and the Edit feature are nearly identical.

D. View Audit Trail Option

The View Audit Trail button enables administrators to view a log of all administrator modifications since the Rate Review database's creation. The feature can filter modifications according to administrator name, date, time, category and type of action.

A Search for and Compare Health Insurance Rate Information

Welcome to the Mississippi Insurance Department's health insurance rate information search engine. The information and resources found on this page are aimed at helping you better understand health insurance rates and the health insurance rate review process. You can use this tool to search for current and past rate information regarding health, long term care, disability and supplemental insurance policies. You will also have access to documents filed with rate filings and be able to compare rate information among multiple companies. We hope that this site will assist you in making informed choices when it comes to health insurance coverage for you and your family. To get started, simply locate your insurance carrier in the drop-down menu below.

B Help & Advice

If you need help in understanding how to interpret the rate increase data represented here, please read through the help section. If you cannot find your answer online, please contact the Mississippi Insurance Department at 800-562-2957, 601-359-2453 or via email at ratehelp@mid.state.ms.us.

A. Search for an Compare Health Insurance Rate Information

This module connects Mississippi residents to the Rate Review and Comparison portal (see Rate Review Interface Training Manual). The Rate Review interface enables Mississippians to review and compare statistics regarding the premium rate increases, loss ratios and enrollment numbers of all major health insurance plans for sale in Mississippi.

B. Help & Advice

The Help & Advice module provides users with important contact information to assist them in using the Rate Review interface. The most recent emails and phone numbers are displayed here in addition to a link to the MID's Rate Review Help page.

C. Frequently Asked Questions (FAQ) Feed

The FAQ page displays the common questions that MS residents have asked regarding their health insurance. All new entries in the FAQ blog are automatically displayed in this section. Clicking on a question will lead the user to its answer, along with related posts on the subject matter.

What is a 'network' plan type?

Posted: July 11, 2011 06:20

By Sacita

The definitions used to describe plan types may vary from state to state. In some areas, insurers define preferred provider organization (PPO) plans as "network" plans. This is because the plan operates under a PPO network. A PPO plan gives you with a large list of pre-selected healthcare providers that deliver services at pre-negotiated rates.

Commissioner for Environment, Alex Ezuma redeployed

Posted: August 2, 2011 23:38
By Secita

IMO STATE BLOG.com has confirmed the redeployment of Mr. Alex Ezuma from the Ministry of Environment to the Ministry of Culture & Tourism.

In a phone call with IMO STATE BLOG, the former Commissioner declined to state reasons on his deployment but disclosed that he was grateful to Governor Rochas Okorocha for giving him an opportunity to serve in another Ministry.

When editing or writing a new post, administrators can use html or a user friendly editorial interface (default). In addition to formatting tools, the editorial interface provides content creators with the ability to add images, videos and file attachments to their posts.

After writing the content, administrators must determine where they want the post to appear. This is done by checking a box in the Categories section. By selecting Blog, the post is published in the Commissioner's blog and reflected in its corresponding homepage feed. By selecting Events Calendar, the event is listed in the Events Calendar blog, but only the closest upcoming event is reflected in its homepage feed. Finally, selecting the FAQ checkbox directs the content to the FAQ blog and also to its corresponding feed on the homepage. If General is checked, the content is published on the Commissioner's blog, but the homepage is not updated.

The Tags section is for common words, themes and phrases from the article. Inputting them increases the likelihood that the article will show up on search engine results. The slug input allows administrators to customize the URL of the post. The slug cannot have spaces (e.g., <http://mid.gov/slugs-customize-here>).

When the content is ready to be published, the administrator must check the publish check box at the bottom of the page, along with whether she wants user comments enabled. The post is considered a draft if the publish box is not checked.

B. Comments

The Comments tab enables the administrator to moderate comments that readers have made to an article (when applicable). Administrators can approve, reject or delete a user's submitted comment. When approved, the comment is publicly displayed at the end of its corresponding article. The interface also filters for comments that it believes are spam.

F. Extensions

The Extension Tab is for adding more functionality to the blog. Extensions allow developers to write a class that can plug in to all the various events that are exposed in the application in a very simple manner.

G. Users

Not all MS administrators should have the roles and privileges described in this training manual. For example, only higher level Mississippi administrators should be able to create new staff accounts. We therefore created the Users Tab to enable administrators to add and restrict specific rights from a staff account. This is done by clicking the Edit button in the Tool drop down menu. Currently, Administrators have all available roles and privileges, Editors have limited roles and privileges, and RateReviewAdmins only have privileges for the Rate Review Interface.

H. Settings

The Settings tab enables administrators to manage and edit the settings of the blog homepage. The sidebar on the right provides the types of homepage settings that Administrators can modify.

From the Basic tab, administrators can change the name, description and theme of the blog, along with the amount of posts per page and mobile settings. In the Advanced tab, the Security Settings tab enables administrators to set the maximum download time and file size for when files that the server accesses remotely. These parameters are currently set to default settings.

Appearance	<input type="checkbox"/> Only show description of posts <input type="checkbox"/> Only show description of posts when listed by Tag or Category <input checked="" type="checkbox"/> Show related posts <input checked="" type="checkbox"/> Show post navigation links	Import & Export
Other settings	<input type="checkbox"/> Use blog name in page titles	

The Feed tab is the link for the RSS feed .It needs to be modified by the Blog Administrator when the Blog system is moved to a different server. This is done via the Endorsement input. In the E-mail tab, administrators can setup the blog to send automated emails via the SMTP email server.

The screenshot displays the WordPress Settings interface. At the top, a navigation bar includes links for Dashboard, Posts, Comments, Pages, Tracking, Controls, Extensions, Users, and Settings. The Settings page is divided into two columns. The left column, titled 'Settings', contains the following fields:

- E-mail address:** user@example.com
- SMTP server:** mail.example.dk
- Port number:** 25 (with a note: *Port 25 is the standard*)
- Username:** user@example.com
- Password:** masked with dots
- Subject prefix:** Weblog
- Other settings:** Includes checkboxes for 'Enable SSL' (unchecked) and 'Send comment e-mail' (checked).

At the bottom of the left column are two buttons: 'Save settings' and 'Test mail settings'. The right column contains a sidebar with the following menu items:

- Basic
- Advanced
- Feed
- E-mail** (highlighted)
- Custom code
- Comments
- Comments Rules & Filters
- Ping Services
- Import & Export

The Comments tab enables administrators to modify the appearance and management of user comments. From here, administrators can turn off moderation settings, co-comments and comment expiration time (if desired). The Disqus Settings are currently not enabled.

Finally, from the Comments Rules and Filters tab, administrators can adjust the spam settings for user comments. For example, it can filter comments with obscene language and setup parameters for a user blacklist (by IP address, web site, email etc).

The Custom code, Ping Services and Import & Export tabs are currently not enabled.
