# **State Fire Marshal's Office Says "Stand By Your Pan" When Cooking Thanksgiving Dinner**

Jackson, MS--- You're at the stove, working hard on the family Thanksgiving dinner. The phone or doorbell rings, someone needs help in another room, and you step away from the stove for just a moment. And that one moment is all it can take for Thanksgiving dinner and possibly your home to go up in flames. Nationally, Thanksgiving is the leading day for cooking fires, with three times as many cooking fires as an average day.

While Mississippians prepare for this Thanksgiving holiday, Mississippi State Fire Marshal Mike Chaney and the State Fire Marshal's Office urge everyone to keep their family safe this holiday by remembering to stand by your pan.

"Unattended cooking is the leading cause of cooking fires," Chaney said.

"Thanksgiving is a day of intense cooking, when stovetops and ovens are working overtime. This brings a greater risk of fire, particularly when you try to prepare several dishes while entertaining family and friends."

Use these safety tips from the State Fire Marshal's Office when preparing your Thanksgiving meal: (Or visit the State Fire Marshal's Holiday Fire Safety page of the MID website and view the fire safety videos.)

### **Stand by your pan**

Be on alert. If you are sleepy or have consumed alcohol, don't use the stovetop or oven.

Stay in the kitchen when you are frying, grilling, or broiling food.

If you must leave the kitchen for even a short period of time, turn off the stove.

If you are simmering, baking, boiling or roasting food, check it regularly, remain in the home while food is cooking, and use a timer to remind you that the stove or oven is on.

Keep in mind that you should avoid wearing loose clothing or dangling sleeves while cooking. Loose clothing can catch fire if it comes in contact with a gas flame or electric burner.

### **No kids allowed**

Keep kids away from cooking areas by enforcing a "kid-free zone" of 3 feet (1 meter) around the stove.

If you have young children, use the stove's back burners whenever possible, and turn pot handles inward to reduce the risk that pots with hot contents will be knocked over.  
Never hold a small child while cooking.

**Keep it clean**

Keep anything that can catch fire—pot holders, oven mitts, wooden utensils, paper or plastic bags, food packaging, towels or curtains—away from your stove top.  
Clean up food and grease from burners and the stove top.

**If you have a fire**

Just get out! When you leave, close the door behind you to help contain the fire.  
Call 911 or the local emergency number after you leave, be sure others are getting out and you have a clear way out.  
Keep a lid nearby to smother small grease fires. Smother the fire by sliding the lid over the pan and turn off the stovetop. Leave the pan covered until it is completely cooled.  
For an oven fire, turn off the heat and keep the door closed.
