## **SCOPE OF EXAMINATION**

We have performed our multi-state examination of Brierfield Insurance Company (“Company”). The last exam was completed as of December 31, 2013. This examination covers the period January 1, 2014 through December 31, 2015.

We conducted our examination in accordance with the NAIC *Financial Condition Examiners Handbook* (“Handbook”). The Handbook requires that we plan and perform the examination to evaluate the financial condition, assess corporate governance, identify current and prospective risks of the Company and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer’s surplus to be materially misstated both currently and prospectively.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. This may include assessing significant estimates made by management and evaluating management’s compliance with Statutory Accounting Principles. The examination does not attest to the fair presentation of the financial statements included herein. If, during the course of the examination an adjustment is identified, the impact of such adjustment will be documented separately following the Company’s financial statements.

This examination report includes significant findings of fact and general information about the insurer and its financial condition. There may be other items identified during the examination that, due to their nature (e.g., subjective conclusions, proprietary information, etc.), are not included within the examination report but separately communicated to other regulators and/or the Company.

## **COMMENTS AND RECOMMENDATIONS OF PREVIOUS EXAMINATION**

There were no comments and/or recommendations deemed necessary for inclusion in the previous examination report.

The Company was incorporated and licensed under the laws of the State of Mississippi on September 1, 1999 for the purpose of transacting property and casualty insurance pursuant to Miss. ("FIG"), with eighty percent (80%) ownership, and Mississippi Insurance Managers, Inc. ("MIM"), an unaffiliated managing general agent, with twenty percent (20%) ownership. FIG, an intermediate holding company, was wholly owned by FCCI Insurance Company ("FCCI"), a Florida domiciled property and casualty insurer. On December 31, 2008, FIG purchased MIM, making the Company a wholly owned subsidiary of FIG. In December 2009, one hundred percent (100%) of MIM's stock in the Company was dividdened to FIG.

## **CORPORATE RECORDS**

Articles of Incorporation, Bylaws and amendments thereto were reviewed and duly applied in other sections of this report where appropriate. The recorded minutes of the shareholder, Board of Directors ("Board"), and certain internal committees were reviewed for the period under examination. ## **Corporate Governance**

The risk-focused surveillance approach requires examiners to consider the insurer's corporate governance and established risk management processes. This evaluation included assessing the "tone-at-the-top", board of directors and management oversight and understanding and conveyance of the necessity of internal controls to employees. Strong corporate governance encompasses a clearly defined vision of ethics, appropriate goals, effective strategy, effective implementation of the strategy, and appropriate reporting systems emphasizing feedback and transparency.

The Company does not have any employees. All administration and management of the Company is performed by employees of its parent and /or affiliates through a Management Services Agreement.

The Board's involvement and oversight along with its independence from management was considered during the course of our examination. Other key variables in our consideration of the Board's involvement included but were not limited to factors such as: (1) the frequency of Board meetings, (2) the type of information communicated to the Board prior to meetings and the topics discussed along with the depth and quality of discussions and (3) key communication channels to and from management to the Board along with the overall "tone at the top". Information regarding the Board members, committees and other related information can be found in the Management and Control section of this report.

The appropriateness of the organizational structure, and its ability to provide the necessary information flow to manage activities were considerations in obtaining our understanding of the organizational structure of the Company and its affiliates. This included consideration of the entity's structure and its ability to communicate information upstream, downstream and across all business activities. Management's competence was also considered in the overall assessment of corporate governance. In our review of this area; we considered factors such as (1) experience level within key management, (2) management turnover and (3) previous experience of key management.

The Company outsourced their Internal Audit ("IA") function to Ernest & Young, until it was brought in-house in 2015. The Chief Auditor reported directly to the FCCI Mutual Insurance Holding Company Audit Committee ("AC") Chairman and the AC Committee was comprised of independent directors. The Board and AC meeting minutes were reviewed noting evidence of detailed discussion during meetings regarding IA activities. The IA Department provided input on operating and financial reporting risks and as well as internal controls.
