

## *Happy 4th of July!*

"Fourth of July is a time for celebration. It's also a time to be careful if you're out celebrating with your friends and your family. Remember that most fires, not cooking fires, but most fires other than cooking start on the Fourth of July. Be careful when you BBQ and be especially careful if you use fireworks to entertain the children. I'm Insurance Commissioner Mike Chaney urging you to have a great time celebrating the birth of our nation, but also being safe when you celebrate."
